THE rain of last night had very little effect on the size of the crowd that flocked to the Hippodrome to see the Lewis-Oliver players in the most delightful comedy drama they have yet put on. 'An unusually large cast appears in this play, including six children—nice little boys and girls—who have been loaned to Mr. Lewis by their mamma. And they are a clever little company in themselves, each one having a speaking part in which they acquit themselves with much intelligence for children so young. But the big folks of the show are certainly a grand lot in this mostly comical—but sometimes pathetic—vehicle which has been selected for the first half of the week.

Miss Millie Beland as the timid spinster and Charlie Montgomery as the spouse she acquires, are a laugh provoking pair and interpret their lines splendidly.

Miss LeRoy takes the leading role and is the real sunshine of the piece. Mr. Lewis and Miss Grandin, both have very good parts, but with the possible exception of Mr. Glanceton are less in the lime light than the rest of the company. Miss Grandin's portrayal of the runaway orphan asylum attendant, who is accused of kidnapping, is the strongest dramatic feature of the bill. Bob Milton is good in the two parts he plays, but his characterization of the prudish woman was a continuous tickler for the audience. Two other "hams"—that's a short word for actors—in the piece are "a perfect scream." We refer to Mr. Dave Hellman and our own fellow-townsmen Reno Fleming. It would take too much space to say what COULD be said about them, and for the present, having in mind the cost of white paper, we must refrain.

George M. Cohan's new American comedy, "Hit-the-Trail Holliday," which comes to the Grand tomorrow night, appears to be one of the real successes of the past season. The play was inspired by the activities of "Bully" Sunday, although its hero is a reformed barkeeper instead of a retired baseball player.

The idea was suggested by George Middleton and Guy Bolton to Mr. Cohan, who has written a story that has a great deal to do with princely reward of doing good in a sensational way; Holliday having success in finance as well as in reform.

Frank Otto, clever comedian, plays the title role and is supported by Arthur V. Gibson, Harry Hubbard, Howard Hull Gibson, Franklin Hall, Dan Anderson, Chauncey Causeland, Louis Egan, Sam Burton, Ben Sweeney, John Daley, E. N. Lewis, Bert Sammis, Lola Merrill, Mildred Beverly and Jo Robinson Hayward.

Either by accident or design Dave Hellman plays a part in the Hippodrome play this week that is said by his friends to have actually occurred to him in real life. As the story goes, "Dave" has a habit of getting off street cars backward. In this instance a conductor who was not paying any too close attention mistook Mr. Hellman's effort to alight for an attempt to get aboard and yanked the bell, taking this poorly passenger beyond his destination and requiring considerable explanation to convince the conductor of his mistake.

Reno Fleming sings "Mother" from the back part of the house right after the slides are shown on the Hipp screen and while the house is in semi-darkness. He does it so well that we can't understand why Mr. Lewis doesn't permit him to sing on the stage, and turn the lights on.

There is considerable rivalry for honors among two of the Hippos supernumeraries. It is impossible to judge the merits by the attitude of the audience, because it is very often the part and not the party that gets the applause. However, we will probably foist our expert opinion upon our readers after a few more observations.

A very clever advertising stunt is put on the Princess screen by the Western Electric Company. We were alert for any words of condemnation that might escape from the audience but heard none. The growing popularity among advertisers of the movie as a means of extolling the merits of their wares has arrived to a point where the public is apt to register a kick. Anticipating the condition of the public mind movie managers are distributing their "slides" between "breaks" in the show instead of grouping them and keeping one waiting for as long as ten minutes to look at advertisements that are without interest and too flat to create any. In this instance a complete little playette is introduced and is undoubtedly a very effective one, from the selling point of view. The Princess management has shown the proper regard for the public's desire by advertising this feature so that those who wished to avoid it were fairly warned. We are inclined to think that those who saw it enjoyed it and those who remained away missed a treat. OLD STAGER.

## ROBERT HYATT MILTON

Heavy man of the Lewis-Oliver Stock company, but a versatile actor, having been seen at the Hippodrome this season in various characters and for the first time last night as a prudish "old maid."

## INDUSTRIAL FAIRMONT

Practically every civilized city in the world has occasion to see some of the work produced at the plant of the Fairmont Box Company. The company manufactures the paper board boxes that are used in the packing of Beechnut products from the plant of that company in Canajoharie, New York. From there they are shipped to Australia, New Zealand, England, France, Holland, Spain, Italy and practically every other country on the globe. The sauces and condiments manufactured by the company are products which are favored with the widest sale abroad.

All of the many construction jobs in progress about the city suffer when the weather man sends rain. Over one hundred men have been hindered in their work the past day or two by the determined drizzle that has been falling. This involves a money loss of several hundred dollars a day as well as the time lost, which to the contractors is usually the more important item.

Unlike many glass plants of the United States, the Monongah Glass Company has not cheapened in any manner the quality of its ware since high war prices for materials presented that temptation. With unlimited buying power the local company has picked the best in the market, and as a result is getting better glass in its tanks than any other glass company in this section. It costs more now to make glass than it did a few months ago, but the trade for which Monongah Glass manufactures is particular enough to pay the higher prices and get best quality ware.

All vestiges of the theatre that was once the Colonial, have been removed from the Hennen property on Main street and now the workmen of Holbert and Spedden are engaged in building the interior of what is to be one of the Fairmont's most modern storerooms. The room is expected to be completed inside the next month.

Many carloads of apples will be purchased in the next few days by the Marion Products company from the big apple farms in the southern part of the state, while at the same time thousands of barrels will rot under the trees on farms in Marion county. The reason is that the Marion Products company must have apples windfalls, and the farmers here at home do not take the trouble to save the windfalls or find a market for them. The company would much rather buy at home but find it impossible since local agriculturists do not seem to care whether they sell their apples or not.

AT PASTIME ALLEYS. The Clarksburg bowling team will be in town tonight to meet the team from the Pastime alleys. The Clarksburg men are good bowlers and the locals are expected to be forced to do their best to take them over.

## Evening Chat

Chief of Police Fred Hart has two mighty smart boys. He says so himself and proves it. Here's how:

"The other day," says the chief, "I was listening to my two youngsters talk. You know my oldest, he's eight, is a mighty smart kid—reads an awful lot of history and such. He was talking to my younger boy, he's six, and mentioned something about a 'conqueror.' Then a minute later he had another thought—I bet you don't know what a conqueror is; he said, 'Don't I, says the wid, the conqueror is the thing that makes the "conk" on an automobile.'

That a satisfactory quality of book paper can be made from hemp hurds, the waste stalk fragments produced in preparing hemp fiber for market, is a conclusion reached by the U. S. Department of Agriculture as a result of commercial tests made in cooperation with a paper manufacturer.

The investigations demonstrated that the hurds can be reduced chemically to paper stock by the soda process under practices little different from those employed for the manufacture of pulp from popular wood. Slightly more bleach was necessary, and beating was found desirable for a somewhat longer period.

Hemp is now grown in Kentucky, Ohio, Indiana, Wisconsin, and California. In Kentucky, however, the fiber is separated from the stalks by hand breakers moved about the fields, and the hurds, therefore, are so scattered that their use for paper making is not economically practicable. It is only in the other states named, where large machine breakers are employed and the hurds are deposited in stacks, that the waste may be drawn upon practically as a paper-making material.

### CUT THIS OUT

OLD ENGLISH RECIPE FOR CATARRHAL DEAFNESS AND HEAD NOISES.

If you know someone who is troubled with head noises, or Catarrhal Deafness, cut out this formula and hand it to them, and you will have been the means of saving some poor sufferer perhaps from total deafness. Recent experiments have proved conclusively that Catarrhal Deafness, head noises, etc., were the direct cause of constitutional disease, and that salves, sprays, inhalers, etc., merely temporize with the complaint and seldom, if ever, effect a permanent cure. This being so, much time and money has been spent of late by a noted specialist in perfecting a pure, gentle, yet effective tonic that would quickly dispel traces of the catarrhal poison from the system. The effective prescription which was eventually formulated, and which has aroused the belief that deafness will soon be extinct is given below in understandable form, so that anyone can treat themselves at home at little expense.

Secure from your druggist 1 oz. Parmit (double strength), about 75c worth. Take this home and add to it 1/4 pint of hot water and 4 oz. granulated sugar; stir until dissolved. Take one tablespoonful four times a day.

The first dose should begin to relieve the distressing head noises, headache, dullness, cloudy thinking, etc., while the hearing rapidly returns as the system is invigorated by the tonic action of the treatment. Loss of smell and mucus dropping in the back of the throat, are other symptoms that show the presence of catarrhal poison, and which are often entirely overcome by this efficacious treatment. Nearly ninety per cent of all ear troubles are directly caused by catarrh; therefore there must be many people whose hearing can be restored by this simple home treatment.

Every person who is troubled with head noises, catarrhal deafness, or catarrh in any form, should give this preparation a trial. Holt Drug Company can supply you.

from hurds has not been estimated by the investigators, but, because of the increasing cost of wood pulp and the increasing acreage of hemp grown in the United States, it is believed that the time may come when the use of the material in the paper-making industry will be profitable.

**MECHANICS IN CHARLESTON**  
CHARLESTON, W. Va., Oct. 17.—Scores of delegates from subordinate councils of the Order of American Mechanics have arrived in Charleston to attend the annual session of the Grand Council of the order, which will be convened here today. Mayor George E. Broome is scheduled to make the address of welcome and response will be made by Henry W. Laughon, of Charleston, grand councillor. Two days will be consumed by the meeting.

**ROBS POKER PLAYERS**  
SISTERSVILLE, W. Va., Oct. 17.—Eighteen men, gathered in a circle playing poker near here, yesterday afternoon, were held up and robbed by Lude Steed, notorious character of this section. The holdup occurred a mile below here and netted the highwayman nearly \$100.

## Prof. Hertzog Praises This Perfect Laxative

DR. CALDWELL'S SYRUP PEPSIN AN IDEAL REMEDY FOR CONSTIPATION.

In every family there is more or less occasion for a laxative remedy. It is to meet this need that Dr. Caldwell's Syrup Pepsin is prepared, and that this combination of simple laxative herbs with pepsin fulfills its purpose is proven by its place in thousands of American homes.

Prof. F. J. C. Hertzog, the well-known linguist, 2341 North Orianna St., Philadelphia, Pa., wrote to Dr. Caldwell that he has used Dr. Caldwell's Syrup Pepsin in his household with excellent results and that he and his family consider it indeed a friend in need, and always keep a bottle of it on hand.

Constipation is the direct cause of much serious illness and is a condition that should never be neglected. Harsh cathartics and violent purgatives should never be employed to relieve constipation because the very violence of their action shocks the entire system. A mild laxative, such as Dr. Caldwell's Syrup Pepsin is far preferable, being mild and gentle in its action, without griping or other pain or discomfort; its freedom from all opiate or narcotic drugs makes it an ideal remedy for children.

Dr. Caldwell's Syrup Pepsin is sold in drug stores everywhere for fifty cents a bottle. To avoid imitations and ineffective substitutes be sure to get Dr. Caldwell's Syrup Pepsin. See that a facsimile of Dr. Caldwell's signature and his portrait appear on the yellow carton in which the bottle is packed. A trial bottle, free of charge can be obtained by writing to Dr. W. B. Caldwell, 455 Washington St., Monticello, Illinois.
